TRAIN THE MODEL IN IBM
Register for IBM CLOUD

Date	10 November 2022
Team ID	PNT2022TMID12917
Project Name	Project - Early Detection Of Chronic Kidney Disease Using Machine Learning

The local deployment of the ML Model has been completed. The following step is to deploy it in the IBM cloud. So, the IBM cloud account is created by the following steps.

- Obtaining the IBM trial code
- Registering using mail id and password
- Verify using OTP
- Provide Personal information
- Accept terms and conditions

The procedure is done by all four members in the team. After creation of login and logging into the cloud, the below page is displayed.
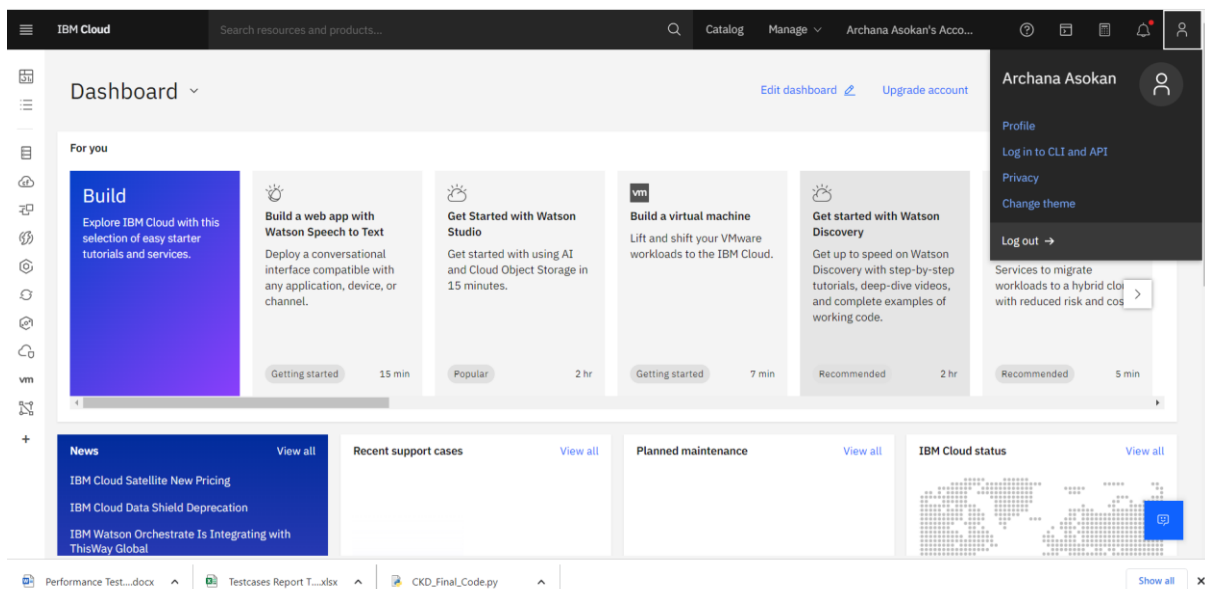

Followed by this, the next step is to deploy the ML model for early detection of chroninc kidney disease in the IBM cloud.
